

Directors Newsletter

Well we are halfway through the season and reached the Financial Year End (31-12-2016) and have some positives to report.

* Membership has seen an increase on the last years closing figures. It was down last year. So nice to get back on the upward trend. Thanks to members who have introduced people to the club and the coaches for their continued efforts.

* Despite being 3 teams short in the Night League Bowls revenue has increased by 4% on the previous year overall.

* Vendor machine is up but the bar and gaming machine is down. This does appear to be the general trend at clubs.

We have made some improvements but now have to get the roof problems sorted as a priority then we intend to change the underlay and turn and clean the carpet in the Summer.

Other items that will be looked at over the next 1- 2 years are

- *Additional new wheelchairs
- * Furniture
- * Bar/social area improvements
- * IT Membership/Accounts software package

We are making every effort to promote the club and attract new members including schools and other user groups and will continue to do so and will need member's cooperation to facilitate this at times.

Any constructive suggestions to improve any matters are always appreciated.

At the A.G.M Bob Thompson will be stepping down as a Director after many years excellent service his IT skills have been invaluable along with his coaching.

We will therefore be looking for a New Director.

Happy, Healthy and Prosperous New Year to all our Members
