

Directors Newsletter October 2018

After perhaps the best summer since 1976 we find the New Season is upon us once again.

It is our 80th Anniversary Year and we hope to make it a celebration year with as many members involved as possible.

We have a newly appointed Director in the young, popular and personable Matt Whyers and we welcome him to the board. Matt is at the top level of the sport but is conscious that the future of the club and sport will require new initiatives, ideas and hard work.

Certainly his fellow Directors and staff will get behind him and hopefully the membership will as well.

It is certainly easy to just sit back and put up fees but we hope we can increase our membership, bowling and other revenues with different ideas and initiatives so please support these efforts as it is in the long term interests of your club.

We are committed to continuing to improve the club and facilities and maintaining it to the highest standards. New scoreboards, New IT system, and dining room walls renovated have, or are, happening with other improvements planned.

Any help from members is most welcome.

Have a good season
